Package Options

Options can be used to change some theme properties, e.g.,

\usetheme [t,SansSerif,AMS]{NU}

Vertical Alignment

c text is aligned at the center of the frame. (default)

t text is aligned at the top of the frame.

Fonts

MathSerif Only math is formatted in serif. (default)

SansSerif Nothing is formatted in serif.

Serif All text is formatted in serif.

Enumeration Style of Theorems

unnumbered Theorems are not numbered. (default)

numbered Theorems are numbered.

AMS AMS style.

Highlighting & Blocks

Text can be highlighted:

- With command structure, which gives text the NU color.
- With command localstructure, which gives local color.
- With command alert, which gives text extra umph.

Block

This is a standard block, and its associated local color.

Example

This is an "example" block, and its associated local color.

Alertblock

This is an "alert" block, and its associated local color.

Lists

- Bullet lists are marked with a red dot.
1. Numbered lists are marked with a white number in a red circle.

  Description highlights important words with red text.

Example

- Lists change color in block environments.
1. As seen in this example block.

  Description and here

Another Example

- Lists change color in block environments.
1. As seen in this alert block.

  Description and here

Venue Command

This package introduces the venue command, with which you can describe the venue where you are giving the talk, e.g. conference name, location, etc.

The command is used like author, institute, etc.,

\venue [Venue 2020]{Venue 2020, Online}

Northeastern
University

Title Page

Title Page Logos

Logos can be added to the title page using

\addtitlepagelogo{logo.png}
\addtitlepagelogo{other_logo.png}

Calling the command multiple times will add multiple logos.

Hide Frame Logo

If necessary, it is possible to free up space in individual frames by omitting the logo on the bottom right. Hiding the logo (and making it reappear) is possible by using the following commands between frames:

\hidelogo

\showlogo

Theorem-like Environments

The theme defines additional theorem-like environments:

- Conjecture
- Facts
- Hypothesis
- Observation
- Proposition
- Assumption
- Axiom

- Property
- Calculation
- Computation
- Notation
- Remark
- Remarks

Notation (Necessary Notation)

...

Axiom (Arbitrary Axiom)

...

Property (Peculiar Property)

...
